

UCLA TMS

Clinical and Research Service

FREEDOM FROM FIBRO PAIN

UCLA is pleased to offer Transcranial Magnetic Stimulation (TMS) for fibromyalgia. TMS is a safe, effective, and non-invasive treatment which has been FDA approved for the treatment of depression. Many research studies demonstrate that it also is safe and effective for the treatment of fibromyalgia. Most insurance plans do not cover this cutting-edge treatment, but we are pleased to offer affordable rates. To learn more, please call or visit us online.
