

Have you tried **antidepressants** and are you still **struggling with** **Depression?**

We want to help.

*If so, please contact us about our clinical research study of an investigational neurosurgical intervention using **Deep Brain Stimulation** for treatment-resistant depression.*

Qualified participants must:

- be 22 to 70 years of age (men and women)
- have failed to respond to medical treatments for depression
- have failed to respond to electroconvulsive therapy (ECT)

Qualified participants must not:

- have psychotic disorders (e.g. schizophrenia)
- have alcohol and/or substance abuse
- be pregnant
